## PROFESSIONAL SUMMARY

Full-Stack Developer with 1+ year of professional experience in .NET, C#, ASP.NET Core, and React.js, specializing in building scalable, secure, and high-performance web applications. Strong foundation in Computer Science & Engineering with hands-on experience in enterprise-level development, REST API design, and modern frontend frameworks.

Proficient in end-to-end development, from backend business logic to responsive UI design. Experienced in Agile environments, clean architecture, and performance optimization. Actively seeking Software Development Engineer (SDE) / Full-Stack / Web Developer roles.

## TECHNICAL SKILLS

- **Languages:** C#, Python
- **Back-End:** .NET, ASP.NET Core, REST APIs, MVC
- **Database:** PL/SQL, Redis
- **Dev Tools:** Visual Studio, Git, Postman
- **Concepts:** Clean Architecture, SOLID Principles, Agile/Scrum, Debugging, CQRS

## EXPERIENCE

### System Engineer

Present - 2024

*Tata Consultancy Services*

- Engineered and optimized scalable backend services using C#, .NET, and ASP.NET Core, significantly reducing application response time and improving system throughput under load
- Designed and deployed RESTful APIs with efficient routing, validation, and error handling, enhancing API performance and enabling seamless integration across multiple services
- Implemented complex business logic and optimized database interactions (SQL), reducing data processing time and improving query efficiency
- Developed and maintained batch processing systems (time-based and file-based) for automated data workflows, ensuring reliable execution, efficient large-scale data handling, and fault-tolerant processing
- Diagnosed and resolved critical production issues, leveraging advanced debugging and logging strategies to minimize system downtime and production incidents
- Refactored legacy codebase using SOLID principles and clean architecture patterns, improving code maintainability, scalability, and overall system design
- Collaborated with cross-functional teams in Agile environments, translating business requirements into technical solutions and accelerating feature delivery timelines.

## PROJECTS

### ROJLEARN: Online Learning Management and Tracking System (LMS)

[Host Website](#)

[Source Code](#)

- Engineered a role-based Learning Management System (LMS) with Admin, Instructor, and Student modules using Spring Boot and Spring Security, implementing secure authentication and fine-grained authorization (RBAC)
- Designed and developed a course management and enrollment system, enabling instructors to create courses, manage content, and control student access dynamically
- Built a progress tracking and assessment engine with automated quiz grading and manual evaluation workflows, improving visibility into student performance.

## EDUCATION

Kalyani Government Engineering College

B. Tech in Computer Science and Engineering GPA - 9.02

Kalyani, West Bengal 741235

2020-2024

## Certifications

1. [Databricks Certified Data Engineer Associate](#)
2. [Databricks Certified Associate Developer for Apache Spark](#)
